

Neophytes Rejoice in New Ruling of O. S. U. Heads in Limiting Initiations

Pledges To Submit to Only Day and Half Grueling, Faculty Says, Power of Paddle To Be Retained Brothers Claim

Marion Star Bureau
Ohio State University

COLLEGE April 3—Not many rules passed by officials at Ohio State university have ever been so cited with as much venom and glee as has the recently issued one which limited the period of drum rolls and initiations to 30 hours.

The happy and contented feeling over the rule however is being shared by most entirely by the plain folks of those various Greek organizations. In accordance with the new rule neophytes will be subjected to a grueling of a day and a half where formerly the initiated were subjected to a Hell Week lasting at least three days and in many cases more.

Keep to Precedents

Under the new ruling initiations must not begin before Friday noon and must be completed by midnight Saturday. The faculty set the duration of period these days so that the ceremonies would not interfere with scholastic duties of the initiates. The initiations must also be confined to the organization's premises.

In consequence the click will eliminate the wild and heraldic trips of neophytes to get diplomas from tombstones in isolated cemeteries in the wee hours of the morning, the roaming through alleys and back streets in search of various colors traps and genders in cars and boats, and other such journeys of similar nature.

The power of the paddle however will still be retained by the

IOWA DRUG USERS REPORTED DECREASING

DES MOINES—Drug victims in Iowa have decreased 45,000 since the Heroin anti-narcotic law was passed 31 years ago according to Capt. H. L. Higbee federal narcotics agent for Iowa.

There are at present less than 500 drug users in the state the agent declared and the number is still decreasing.

Full cooperation of physicians and public health authorities and the driving out of peddlars of narcotics Capt. Higbee believes will in time eliminate the use of drugs and reduce the number of victims to a negligible figure.

Marion County's Wheat School Light Regulation Electrically Controlled as Best in Several Years

Emerges from Winter Season in Good Condition, Local Farm Bureau Manager Says Following Survey
Winter Weather Proves Favorable

Our crop this fall was good, and we had a good wheat crop in 1928 in Marion practically no snow or rain until late January, but we had some weather to do much damage. The weather was very severe during the winter months, and it did not do much damage to the wheat fields. The weather was very cold, and the wheat did not stand up well.

Spring Weather Favorable

The spring months of the year were exceptionally good for wheat. The weather was very light, frosty, and thawing caused by decided changes in temperature which would tend to injure the small plant from the soil. When such a condition occurs, the tender roots are left exposed, freezing out of the soil and cannot obtain the plant food to carry on its growth, causing the plants to die in the lack of moisture. If the winds will not blow too hard away from the small root system, almost no damage will be done. I expect the only reason of this is by the use of a cultivator which presses the roots into the soil of the plant more firmly in the soil.

Since arrival of warmer weather, moisture has been sufficient to insure rapid growth from the very early spring. The grain started out with its growth from the winter and now is showing prospects for a fine wheat yield for this season. The percentage of winter killing in wheat has been below normal according to information from authorities, and it is not likely the weather condition within the next 10 days will be such as to prove disastrous to this year's crop. The wheat acreage in Marion county this year due to scarcity of seed wheat and drought last fall is somewhat below normal, but from the present indications it is expected that the yields from the acreage will be equal to those of last year.

FOR ECONOMICAL TRANSPORTATION

Ten Reasons why 300,000 careful buyers have chosen the New Chevrolet Six *since January 1st*

Ever since the date of its introduction, the new Chevrolet Six has swept triumphantly on to greater and greater heights of popularity. Value for value and price for price—buyers have compared it with other cars in the low-price field. And the result has been an overwhelming public preference—over 300,000 buyers since January 1st. And everywhere the enthusiasm is constantly increasing—for the new Chevrolet Six combines, as does no other car in the world, those ten great fundamental factors which careful buyers are now demanding in the cars they buy.

6-Cylinder Smoothness

Due to the finer inherent balance of its six-cylinder valve-in-head motor, the new Chevrolet provides that smooth, quiet, flexible performance which is the distinguishing characteristic of the truly fine automobile. At every speed, the power is delivered easily, freely and without annoying vibration. You can ride and drive for hours without annoying rumble or noise fatigue—every mile a delight for both driver and passengers.

6-Cylinder Getaway

And in sheer brilliance of performance, as well as in smoothness and quietness of operation, the new Chevrolet Six is a revelation. An automatic acceleration pump results in remarkably fast acceleration whenever the accelerator is suddenly depressed. And a new high-compression, non-explosive cylinder head eliminates every trace of "lugging"—even when you have occasion to accelerate swiftly in high gear.

6-Cylinder Speed

Naturally, Chevrolet's powerful six-cylinder valve-in-head motor might be expected to provide speed in abundance. But even more important than the speed of the new Chevrolet Six is the smooth, quiet, restful comfort you experience at every point on the speedometer. You can open the throttle wide with a feeling of complete security—and you come to the end of a full day's drive entirely free from the weariness caused by engine noise and body rumble.

6-Cylinder Power

The great reserve power of the new Chevrolet Six is a constant delight. The steepest hills are taken with ease. Heavy roads are negotiated without the necessity for frequent gear-shifting. And even at the higher speeds, there is always that feeling of confidence which comes from the knowledge that additional power is at hand... instantly available for whatever need may arise.

Modern Safety Features

The new Chevrolet Six is equipped with every modern safety and convenience feature—typified by a full ball bearing steering mechanism, non-locking 4-wheel brakes with separate emergency brake, foot controlled adjustable two-beam headlights, automatic fuel pump, theft-proof Electro-lock, electric motor temperature indicator, and Fisher VV windshield and adjustable driver's seat in all closed models. As a result, it is one of the easiest and safest cars in the world to handle.

Better Than 20 Miles Per Gallon

The marvelous performance of the Chevrolet Six would be considered exceptional in any automobile. But in the new Chevrolet it is nothing short of sensational—for here it is combined with operating economy of better than 20 miles to the gallon of gasoline. As a result, those who can afford to own any automobile can afford to own and operate a Chevrolet Six!

Exceptional Riding Comfort

Another vital factor that has influenced hundreds of thousands in their selection of the new Chevrolet Six is its exceptional riding comfort. Built on a wheelbase of 107 inches... offering the deep-cushioned luxury of bodies by Fisher... and with the entire upper structure cradled on four long semi-elliptic shock absorber springs—it travels the roughest highways with amazing com-

fort. And its balance on turns and curves is equally exceptional—for the rigid frame and the long springs reduce sidesway to the minimum.

Beautiful Fisher Bodies

The marvelous bodies on the Chevrolet Six reveal, as never before, the matchless artistry that has made the Fisher name renowned throughout the world for excellence in coachcraft. Longer, lower and roomier... finished in attractive, long-lasting colors... and upholstered in rich deep-tufted fabrics that give to the interiors an air of custom elegance—they introduce into the low-price field an entirely new measure of style and distinction.

Proved Dependability

Before the new Chevrolet Six was presented to the public, it had been tested for more than a million miles on the roads of the General Motors Proving Ground. Never did a new motor car go into the hands of its owners more thoroughly proved in every detail. And now, reports of its performance on the highways of the nation pay glowing tribute to its endurance and dependability.

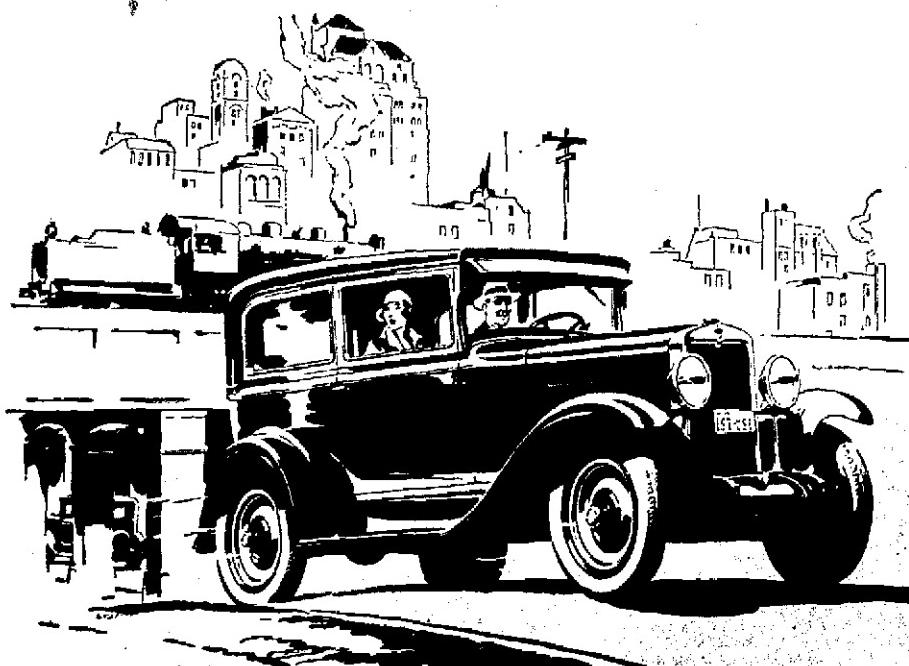

Amazingly Low Prices

Many people do not realize that this marvelous new six-cylinder Chevrolet is actually offered in the price range of the four. Compare total delivered prices as well as factory prices when determining automobile values. You will find Chevrolet delivered prices include the lowest handling and financing charges available.

April 25 has been set as the date for the wedding. The announcement was made by an Easter hymn, during the dinner hour. A color scheme of green and white, the colors chosen by Miss Whipple to predominate in her wedding, was carried out in the dinner appointments. Three tables were filled for cards, high honors going to Miss Helen Roby. Miss Golda Van Buskirk was consolée.

Guests at the announcement party were Mrs. J. Wendell Wiant, Mrs. Ruth Cheney, Mrs. Carroll Kerr, Mrs. John Weidemann, Mrs. William H. Stark and Misses Golda Van Buskirk, Helen Roby, Dorothy Stark, Mildred Romoser, Ruth Martin, Ruth Clews and Caroline Obern.

SHE GAINED WEIGHT WITH MCCOY'S TABLETS

You remember, of course—not so long ago she was a regular scarecrow—skinny is a mild word for the way she looked.

Just look at her now—if ever a woman had a perfect figure she has it—she is the envy of half the girls in town.

It's nothing to get excited about—all she did was to take on weight—filled out the hollows in face, neck and chest—any skinny, weak, run down woman can do the same and gain a clean clear complexion at the same time.

McCoy takes all the risk—Read this ironclad guarantee: If after taking 4-6'sty boxes of McCoy's Tablets or 2 One Dollar boxes any thin underwear man or woman doesn't gain at least 5 pounds and feel completely satisfied with the marked improvement in health—your druggist is authorized to return your money.

Ask at Henney & Cooper or any drug store for McCoy's Tablets. Marketed by McCoy's Laboratories. Also distributors of McCoy's Cod Liver Oil—Adv.

Don't Stay Fat IN THESE DAYS

You see countless people who have gained new beauty, new health and vim, by fighting excess fat. Some have done this by abnormal exercise and diet, some in a modern scientific way. Why not follow their example?

This is a way based on scientific research. It combats a cause of excess fat which starvation cannot fight. That method is embodied in Marmola prescription tablets, now used for 20 years. Millions of boxes of them. The results you see wherever you look should induce you to accept them.

Each box of Marmola contains the formula, also the reasons for results. So there is no secret, no reason to fear harm. You will know that all the good results come in a natural way. Go learn now, by asking your druggist for a \$1 box of Marmola.

Laddie Gray and his mother, Estelle Gray-Lehman, who will appear here April 22 under auspices of the music department of the Marion public schools, with T. H. Evans, music director, in charge.

Laddie Gray, a boy of eight years,

will be one of the interesting features of the program. His repertoire of piano compositions contains the works of Mozart and other famous composers of music.

Gray-Lehman's technique and rare

gift as a violinist has won praise for

her wherever she has appeared.

The two will appear on the Central

Junior High school auditorium plat-

form in a matinee for school children

the afternoon of April 22. Seats will

be \$25 tickets for the matinee shows that \$25 tickets

have been asked for and the auditorium has a seating capacity of 700.

Laddie Gray and his mother are

appearing here at prices lower than

those at any of their previous engage-

ments, in order that the school chil-

dren and all those who love mu-

sic may hear them.

Tickets will go on sale Monday,

April 8, at all school buildings. Pupils

at the schools will have tickets to

sell and anyone may purchase them

at the office of W. E. Groat, prin-

cipal of Central Junior High school.

Famous Konjola Went To Source of Ailments; Lauds New Medicine

MR. STEVE SOBERDASH

"After suffering for two years from stomach trouble, Konjola quickly and surely restored my health so that I feel like a different person," said Mr. Steve Soberdash, 1022 Floryan Avenue, Youngstown.

"When I was nineteen years old I was extremely weak and lacking in strength and energy. I was unable to eat a meal without suffering intensely afterward from pains. This would be appetite and I ate but very little. Still I suffered from gas bloating and acidity of my stomach. I experienced vomiting spells quite often. A friend recommended Konjola, and in his indorsement I decided to take a trial. All my ailments vanished within eight weeks and have since returned. I have gained weight and am stronger than any other young man. Eat whatever is placed before you, take the food and eat properly balanced. It is indeed a wonderful medicine to be free of two years suffering and I owe it all to Konjola. To me there can never be any other medicine like Konjola."

Konjola is different than any other medicine in this section. It contains twenty-two juices extracted from several plants which invigorate the stomach, liver, kidneys and give a more healthy action. The secret of this Konjola on the entire body being a amazing relief in cases of indigestion that has been going on for years. At the same time major and minor systems have been brought to a new state of health due to this compound. Such a vast number of men and women in this section have told of their experience with this new medical product, until now, this is the most highly indorsed medicine that is known in this section.

Konjola is sold in Marion at Stump Pharmacy and by all the best druggists throughout this section.

All Employees of Entire Erie System to Receive Rigid Health Examination

Announcement of Plans Received Here by Dr. E. B. Flavien Specialist in Charge of Local Territory, "Color Car with Corps of Physicians To Make Tour

All employees of the Erie railroad over the entire system between New York City and Chicago, will be subject to a complete physical examination under the new set of health rules recently made by officials of the rail road, according to a statement received here yesterday by Dr. E. B. Flavien specialist in eye, nose and throat specialist for this division of the Erie.

This work of health inspection will be conducted by a number of doctors who will tour the entire system in what is known by officials of the road as the color car. Doctors and physicians who travel with this car give every employee on the road a thorough examination of eye, ear, nose and throat as well as a complete physical examination. This is the first year that such an extensive health plan has ever been employed by a railroad and officials of other roads are waiting to see the results of the examination plan Dr. Flavien says.

It is not known at exactly what date the color car will reach Marion this coming Saturday, as the length of time necessary to stay in the various divisions of the road.

Local Specialist's Function

The Erie railroad maintains its own set of standards on the route. Dr. Flavien's territory covers as far west as Huntington, Ind., while Dayton, Mansfield, Canton, and Akron also come in under his jurisdiction.

Following the general examination that is given by the staff of the color car if an employee is found to be deficient in any of the departments of health taken care of by Dr. Flavien, an order is given in order to report at Dr. Flavien's office as soon as possible. After the employee has undergone this second in the thorough examination he is either given a clean bill of health or sent to other physicians for a conference with Dr. Flavien's decision or a new examination.

If Dr. Flavien gets a case that requires medical attention the employee is to be sent to Dr. Frank Dillen, chief surgeon of the railroad with offices in Cleveland.

Final Examination

Provided Dr. Dillen who is one of the foremost physicians in his field in the country gives the patient a clean bill of health he is retained in his position while Dr. Dillen can see no cure for faulty sight or some like ailment the employee is released.

A according to Dr. Flavien the examinations now are much more rigid and strict than those of only a few years ago. When Dr. Flavien took over his work with the Erie the examinations were fairly simple and not hard to pass while now there is an entirely new set of standards which must be passed by the employee.

Dr. Flavien has been with the Erie in his present capacity since April 1 in his present capacity since April 1.

BAER AND CRAMMER HELD TO GRAND JURY

Men Taken in Sheriff's Raid
Plead Guilty in City Court

Drew Crammer and Bernhard Baer, both of Marion, were bound over to the grand jury yesterday afternoon in arraignment before Judge Martin on the charge of stealing 50 chickens valued at \$100. Their bonds were fixed at \$1,000 each.

They were arrested Friday night in a surprise raid by Sheriff John J. Frantz on the Delaware rd., a few miles south of the city. Both pled guilty when arraigned.

At the time the arrests were made, Baer was wounded by a shot fired by Sheriff Frantz.

PICTURE IN TOKIO CLUB MAY PROVE A RUBENS

TOKIO—A picture which has been hanging in the Peers Club in Tokyo may turn out to be a masterpiece of the famous Dutch painter Peter Paul Rubens called Fighting With Wild Beasts of Troy which has long been thought missing for more than 100 years. This startling announcement was made by Baron Sakatani, former Mayor of Tokyo at a social meeting at the Peers Club.

Baron Sakatani says he is sure that the work of art in Tokyo is the original.
